**Abstract Embargo Policy**

All meeting attendees, members of the media, companies, institutions, organizations, universities, investment advisors, and all other individuals are required to abide by the embargo policy governing the American Diabetes Association's (ADA's) 84<sup>th</sup> Scientific Sessions.

An embargo means that information from any abstract or presentation is confidential and may not be announced, publicized, or distributed before the embargo date and time. This policy applies to all formats of release, including the Scientific Sessions online itinerary planner, meeting app, Abstracts on USB, abstracts available online via the ADA's website, and any other distribution method.

The purpose of the embargo policy is to protect the scientific integrity of the abstract submissions presented at the ADA's Scientific Sessions. All submissions are to be considered preliminary until the time of presentation or authorized for public release. Violation of the embargo policy by release of information contained in any abstract prior to its embargoed date and time will result in the individual, as well as the employer/affiliated company, institution, organization, etc., being removed from ADA's 84<sup>th</sup> Scientific Sessions, with a two-year ban on returning.

**Prior Publication:**

If the accepted abstract is also submitted as a manuscript for publication, authors are responsible for coordinating a publication date that abides by the ADA's embargo policy. If publication occurs online or in print before the specific embargo date and time set by the ADA, the abstract must be withdrawn. Notify the ADA via e-mail at [abstracts@diabetes.org](mailto:abstracts@diabetes.org).

**Specific Embargo Dates and Times:**

**\*Oral Presentations:**
